OFFICE OF MEDICAL SERVICES

Accounting of Disclosures of Records Made
To Persons Or Entities Outside
The Central Intelligence Agency

The Office of Medical Services releases medical records of current employees, former employees, and unsuccessful applicants to designated physicians, health insurance companies, schools, and government agencies upon official request. Each request is checked and verified for authenticity and must identify the medical facility and address to which the records are to be sent, the specific records to be forwarded, date, printed name and signature of the authorizer, as well as his/her telephone number and date of birth. The specific medical documents are copies and sanitized in order to protect Office of Medical Services and Agency equities. Appropriate cover protocol is followed if indicated. The request and final action becomes part of the subject's Office of Medical Services medical file, and the date the records sent is duly recorded.
